TO: The Dover Town Board and The Benjamin Companies
FROM: Judy Baker, 101 Hurds Corner Road, Pawling, NY 12564
DATE: June 30, 2009
SUBJECT: D.E.I.S.

CONCERNS:

1. Environmental Issues: Asbestos Removal

How will you guarantee the safety of our health and quality of life during the removal process?

2. Schools:

Due to the possibility of overcrowding the school system, The Benjamin Companies should donate land for another school and money for a building fund. Since the Town of Dover and The Benjamin Companies have jointly applied for \$20.5 million of Stimulus money for removal of some of the buildings, I feel that setting aside land and funds to build a school, if needed in the future, is a reasonable request.

3. Local Contractors Hiring Laborers:

Since The Benjamin Companies is promoting many new jobs during this project, they as well as the contractors, should guarantee us that they will employ legal citizens. Homeland Security (I.C.E) should be on site to ensure that this happens.

4. Build the Town Center First:

If you build the Town Center first, it will create jobs that will draw people to the area which will then require housing.

A Good Credit Score is 700 or Above. [See yours in just 2 easy steps!](#)
