
SCOPING MEETINGS: KNOLLS OF DOVER

April 29, 2006 9:00 – 11:00 AM

May 1, 2006 6:30 – 8:30 PM

Dover Middle/High School

Meeting Purposes

1. To give the public an opportunity to identify potentially significant adverse impacts of the proposed Dover Knolls Project that should be studied in the Environmental Impact Statement (EIS).
2. To comment on the significance of potential impacts and identify those that are irrelevant or insignificant.
3. To suggest alternative development scenarios and mitigation measures that should be studied as part of the EIS.

The purpose of the meeting is *not* to hear comments on the merits of the project itself or to express support or opposition to it. There will be other opportunities for such comments to be made. If there are factual questions about the project, these will be answered.

AGENDA

1. Welcome and Introductions: Jill Way, Town Supervisor (5 minutes)
2. Purposes of meeting and procedures: Joel Russell, Town Planning Consultant and Meeting Facilitator (5 minutes)
3. Summary of draft scope prepared by developer: John Saccardi, Dover Knolls Planning Consultant (5 minutes)
4. Public comment on potential impacts of the proposed Dover Knolls project (1:45)
