Parcel Number 580190 & 585063  
2241 NYS Rt 22 Wingdale NY 12594  
Site Plan cold asphalt processing plant using PCS*

*Dear Mr. Hogan;*

*During a recent site visit of the Howland Lake Partners, LLC site to look at the operations of the Rasco PCS plant the planning board observed many open barrels and barrels filled with activated carbon. I understand by talking with NYSDEC staff at a recent Cricket Valley Energy meeting that NYSDEC is aware of this site and the condition thereof.*

*The planning board of Dover would like to know if an environmental review of the site was performed and if so can copies of the findings be provided to the Planning Board of Dover?*

*Thank you for your time and consideration*

*Sincerely*
